Stagehands are to be made available from the ARTIST's time of arrival at the venue to the ARTIST's time of departure and load out of ARTIST's backline (if ARTIST is carrying backline). Should less than the sufficient stagehands be available at the designated load in time, and if, in the interests of expediency members of the ARTIST's personnel are required to load-in and/or set up the stage over and above their normal duties, then PRESENTER will be liable for and charged for the full hourly rate of said members of ARTIST's personnel. Backliner (where applicable) and ARTIST's crew are available in supervisory capacity only.

Additionally, PRESENTER will provide the following personnel:

1. THE PRESENTER or DESIGNATED HOUSE PERSON with full decision making powers to be present from load in until the completion of the performance unless otherwise advised by the Artist's manager.

3. We will still need a top quality **HOUSE SOUND PERSON** to be present immediately following load in to mic and patch stage and to assist Artist until end of performance.
4. **HOUSE MONITOR MIXER and MONITOR ENGINEER** fully conversant with the equipment to be present to adjust and run monitor system during sound-check and performance.

All above personnel must be given copies of and read ARTIST's technical requirements which are attached to this rider. It is understood that these personnel will receive directions from ARTIST MANAGEMENT during sound-check and show and they should be willing and able to abide by such directions.

All equipment and backline need to be set up and ready for band prior to the designated sound-check time so that sound-check can commence immediately on arrival of the band.

F.LIGHTING REQUIRMENTS

ARTIST'S MANAGEMENT shall have exclusive control over the house lights throughout the show. All sound and lighting systems must be approved by ARTIST's Tour Manager in advance of the show date. ALL LIGHTING NEEDS TO BE APPROVED AT SOUND-CHECK.

- All lighting rigs must be at least ten (10) metres above the stage height.
- All light must be directed away from the heads of the band, NO DIRECT LIGHTING ON BAND MEMBERS HEADS FROM BEHIND OR FRONT.
- **STEADY EVEN LIGHTING SHOULD BE USED.**
- A mixture of: lavenders, pinks, whites, reds, orange and PURE blue should be used.
- **NO GREEN, BLUE /GREEN, TURQUOISE GELS TO BE USED.**
- If a follow spot is used (and this is NOT a requirement), it should be used with discretion and not all the time. Maceo likes to be able to see the audience, and you may want to light the audience for some parts of the show.
- **NO SMOKE OR FOG MACHINES TO BE USED DURING SOUND-CHECK OR DURING THE SHOW FOR THE ARTIST OR FOR ANY ACTS PRECEDING THE ARTIST.**

Please note: Members of the band are allergic to chemicals and ARTIST shall NOT be able to perform if smoke is used. We are sure that you do not want this to happen.

- A lighting pole, for moving any offending lights must be provided to ARTIST MANAGER at sound-check for emergency use during the show.
- **NO BLACKOUTS are allowed** during the performance; the **stage must be lit at all times** including and especially in between songs. Maceo gives signals to the band during the entire show, they cannot see him if there are blackouts, therefore no black-outs or overly sudden changes of lighting.

Finally and very importantly, please run your lights during sound-check so we can check no one is going to be overheated during the show. Too often we find out the lights are too close or too hot too late... Please do not direct any lights at the back of anyone's head. If lighting rig is lower than two (2) metres, please do not use overhead lighting but light from the side or backdrop. Please let us know if you feel unable to take direction from ARTIST MANAGEMENT during the show. We would rather know this ahead of time then struggle with this kind of problem during the show. Thanks!
